

Table of Contents

1. EXECUTIVE SUMMARY

2. ORIGIN AND STRUCTURE OF GeoPRISMS

- 2.1. Scope and Accomplishments of MARGINS
- 2.2. MARGINS Decadal Review and Planning for GeoPRISMS
- 2.3. Building GeoPRISMS beyond the MARGINS Brand
- 2.4. Initiative Structure
- 2.5. Integrated GeoPRISMS Science and its Societal Impact
- 2.6. Justification for a Stand-Alone Program: Why Not Core?

3. OVERARCHING SCIENTIFIC TOPICS AND THEMES

- 3.1. Origin and Evolution of Continental Crust
- 3.2. Fluids, Magmas and Their Interactions
- 3.3. Climate-Surface-Tectonic Feedbacks
- 3.4. Geochemical Cycles
- 3.5. Plate Boundary Deformation and Geodynamics
- 3.6. Integrating Overarching Themes Within GeoPRISMS Science

4. SUBDUCTION CYCLES AND DEFORMATION

- 4.1. What governs the size, location and frequency of great subduction zone earthquakes and how is this related to the spatial and temporal variation of slip behaviors observed along subduction faults?
- 4.2. How does deformation across the subduction plate boundary evolve in space and time, through the seismic cycle and beyond?
- 4.3. How do volatile release and transfer affect the rheology and dynamics of the plate interface, from the incoming plate and trench through to the arc and backarc?
- 4.4. How are volatiles, fluids, and melts stored, transferred, and released through the subduction system?
- 4.5. What are the geochemical products of subduction zones, from mantle geochemical reservoirs to the architecture of arc lithosphere, and how do these influence the formation of new continental crust?
- 4.6. What are the physical and chemical conditions that control subduction zone initiation and the development of mature arc systems?
- 4.7. What are the critical feedbacks between surface processes and subduction zone mechanics and dynamics?
- 4.8. SCD in the Next Decade

5. RIFT INITIATION AND EVOLUTION (RIE) INITIATIVE

- 5.1. Where and why do continental rifts initiate?
- 5.2. How do fundamental rifting processes (such as tectonics, magmatism, and erosion, transport, and sedimentation), and the feedbacks between them, evolve in time and space?

- 5.3. What controls the structural and stratigraphic architecture of rifted continental margins during and after breakup?
- 5.4. What are the mechanisms and consequences of fluid and volatile exchange between the Earth, oceans, and atmosphere at rifted continental margins, and between the lithosphere and the mantle?
- 5.5. RIE in the Next Decade

6. IMPLEMENTATION OF SCIENCE OBJECTIVES

- 6.1. Proposed Implementation Structure for GeoPRISMS
- 6.2. Approach and timetable for finalizing the GeoPRISMS Science Plan
- 6.3. Immediate (FY11) Opportunities for GeoPRISMS
 - 6.3.1. *Time-sensitive Opportunities at Existing MARGINS Focus Sites and Integration Activities*
 - 6.3.2. *Cascadia Initiative*
 - 6.3.3. *USArray Studies of Other US Margins*
 - 6.3.4. *Law of the Sea - the US ECS Project*
 - 6.3.5. *Rapid Response Research Opportunities*

7. RESEARCH STRATEGIES

- 7.1. Seismology Research Strategies
- 7.2. Geodesy and Remote Sensing
- 7.3. Other Geophysical Methods
- 7.4. Drilling, Coring, and Logging Strategies
- 7.5. Field Observations
- 7.6. Experimental and Analytical Strategies
- 7.7. Numerical Modeling Strategies
- 7.8. Integrative Research Strategies

8. PARTNERSHIPS AND COLLABORATIONS

- 8.1. Relationships to Other NSF-Supported Programs & Facilities
 - 8.1.1. *EarthScope*
 - 8.1.2. *UNOLS Fleet and R/V Marcus G Langseth*
 - 8.1.3. *Scientific Ocean Drilling through IODP*
 - 8.1.4. *Seismological Facilities and Equipment.*
 - 8.1.5. *Geodetic Facilities and Equipment*
 - 8.1.6. *Ocean Observatories Initiative (OOI)*
 - 8.1.7. *Computational Infrastructural Facilities*
- 8.2. International and Multi-Institutional partnerships
- 8.3. Collaborations with Industry

9. EDUCATION & OUTREACH FOR THE GeoPRISMS PROGRAM

- 9.1. Focus and Goals of the PRISMS Education and Outreach Program
- 9.2. Focus on Undergraduates: REU and Other Programs
- 9.3. Building the Student / Post-doc / Early Career Community
 - 9.3.1. *Student Forum and Pre-Meeting Symposium*
 - 9.3.2. *Postdoctoral Program*
- 9.4. Develop Educational Resources and Foster Faculty Involvement: Mini-Lessons
- 9.5. Expand E&O Through Strategic Partnerships
 - 9.5.1. Partnered "Event- Based" Presentations
 - 9.5.2. Other Partnership Opportunities
- 9.6. Distinguished Lectureship Program
- 9.7. Managing and Supporting an Effective Education Program

9.8. Opportunities for Future Growth

9.8.1. International Experiences

9.8.2. Bridging Experiences

9.9. Summary Statement and Unifying Vision9.9. Summary Statement

10. OTHER IMPACTS OF THE GeoPRISMS PROGRAM

10.1. Interdisciplinary Science and Community Building

10.2. Understanding Geohazards

10.3. Economic Resources

10.4. Data Management in GeoPRISMS

11. PROGRAM MANAGEMENT

12. REFERENCES
